

Free Library Programs for Babies & Young Children

Why libraries are great for little ones

Libraries offer welcoming, inclusive spaces where babies and young children can explore books, songs and stories in a relaxed, supportive environment. Programs like Rhyme Time and Story Sessions help support early brain development, language skills, social connection and a lifelong love of reading, all while giving parents and carers a chance to connect with others in their local community.

Below is a list of libraries across the SE Metro offering programs for babies, toddlers and young children.

City of Armadale
