

## Tip sheet: Toileting picture steps for girls

This series of pictures for girls is to help your child develop the skills of toileting.

The pictures cover all aspects of toileting. You will use different pictures when teaching the individual skills of toileting.

### How to use the pictures

- Choose the pictures you wish to use. For example: the series of pictures that show sitting on the toilet, or the pictures that show the steps of bottom wiping. Alternatively, you may select those pictures that remind your child of the main steps of toileting.
- You can then make a book using the pictures that you and your child can read together or your child can read when sitting on the toilet.

- You may wish to put the pictures, in sequence, on the wall next to the toilet to help your child with the right order of the toileting steps.
- You may wish to use individual pictures such as the picture of the toilet that your child then uses to let you know they need to go to the toilet.

These are a few ideas of ways to use the pictures to get you started. You will probably come up with many more. Some parents choose to laminate the pictures so they last longer.

Toilet time

Sign toilet

Toilet

Lid up

Dress up

Undies down

Sit down

Do wee

Get toilet paper

Wipe bottom front to back

Put paper in toilet

Do poo

Get toilet paper

Wipe bottom front to back

Check paper

No poo

Put paper
