

Protective Behaviours

Connected Families

For parents and carers of children 3-12 Years

1 session program

Equip your child with the language and principles of protective behaviours to develop their personal safety, knowledge and skills.

By sharing protective behaviours with your child, you will be helping to develop life long skills of assertiveness, self-confidence, problem solving, communication, resilience and reaching out for help when needed.

To get the most out of this online workshop, participants will need to have both video and sound enabled. This helps create a safe, interactive, and supportive space for everyone.
